ABOUT US

Botho University (BU) was established in 1997 and has rapidly evolved over the years to become a leading multi-disciplinary high-quality tertiary education provider. Botho University was one of the first local tertiary institutions in Botswana to be accredited by the Human Resources Development Council (HRDC). All programmes offered by Botho University are approved by regulatory bodies where we operate. BU currently offers programmes through four faculties namely Faculty of Business & Accounting, Faculty of Engineering and Technology, Faculty of Health and Education and Faculty of Hospitality and Sustainable Tourism. BU strategy is focused on building strong, industry-focused Science, Technology, Engineering and Mathematics (STEM) programmes, which are critical to economic growth in Africa. Additionally, the new 2023 - 2027 strategy's key principles are Vibrance, Innovation and Impact which are supported by the university Sustainability and Social Impact Report 2022.

BU currently offers qualifications from certificate to master's degree levels with established plans

for doctoral programmes in the foreseeable future. The University, with over 3500 students and nearly 350 staff members and a great opportunity for further expansion and growth, is a dynamic and exciting place to be. Botho University is one of the few Southern African institutions to have established international campuses successfully operating outside Botswana, producing all-rounded and globally employable graduates.

BU programmes are offered through an online Distance Learning Campus as well as physical campuses located in Botswana, Lesotho, Namibia, Eswatini and Ghana. For the latest information on the university programmes, kindly refer to the specific campus prospectus for details or visit www.bothouniversity.com.

Botho University opened its state-of-the-art campus in Maseru Mall in 2015, with plans to build and open a campus by 2024. BU Lesotho Campus is fully compliant with the Council on Higher Education's regulatory requirements.

BU Maseru offers degree programmes through three faculties of Business & Accounting, Health and Education and Engineering & Technology.

ABOUT US (CONTINUED)

THE LEARNING MANAGEMENT SYSTEMS

As a modern university, Botho University prides itself on being a technology driven institution from inception. The COVID 19 pandemic in 2020 helped BU to demonstrate its strength when teaching and learning migrated from classroom teaching and learning to online learning with ease. The Faculty and students from various campuses were able to adapt easily when the university fully moved from “non-contact” teaching to online learning. During the COVID-19 pandemic, Botho University deployed high- end technology to ensure that learning and teaching continued in spite of the restrictions that posed a threat to many educational institutions dependent on teaching and learning taking place on physical campuses.

Botho University has invested in a robust state-of-the-art mobile learning and e-Learning infrastructure called Blackboard that has been the backbone of online learning for both classroom and blended and distance learning. All Botho University students and staff use Blackboard Learn and its mobile application to enhance teaching and learning.

Blackboard Learn is a Virtual Learning Environment (VLE) that supports teaching and learning by allowing students to access course materials online. Blackboard App and Blackboard Instructor App are the mobile versions of Blackboard, which students can access through the use of smartphones or tablets. Blackboard has a plethora of features and functionality that provides an unparalleled level of student engagement, such as discussion forums, wikis, blogs, and journals, as well as advanced content management features that allow for textual, audio, visual, and pictorial content. In addition, Blackboard provides powerful assessment features that allow plagiarism check as well as comprehensive reporting and analytics for easy identification of “at-risk” students.

Apart from Blackboard, BU also has an industry leading anti-plagiarism check tool called “Turnitin” making its assessment activities stringent and of international quality. Through the Blackboard students and staff have easy and full access to e-Library facilities. The University E-Library has the following Databases: Emerald, Ebscohost, Proquest, Dawsonera, Jstor and BU Repository, for access to all the E-Books, E-Journals, theses, dissertations, case studies and many more resources.

CORPORATE TRAINING DEPARTMENT

Since 1997, Botho University has been offering a diverse range of programmes for in-service professionals and organisations. Under the Corporate Training Department, there are over 200 short-term professional development programmes, which can be customized to meet the client’s requirements. The department in liaison with the faculty develops professional development programmes to improve productivity, performance, and profitability.

FUTURE PLANS

Botho University’s strategic focus is to increase student diversity by attracting international students. Apart from Botswana, Lesotho, Namibia and Eswatini, BU campuses (including physical and distance learning campus) attract several students across Africa. BU’s diverse community includes students from South Africa, Namibia, Zimbabwe, Zambia, Democratic Republic of Congo and Ethiopia to name a few.

BOTHO’S PARTNERSHIPS

Botho University has partnerships with world renowned institutions in Africa, India, Europe and America. These partnerships are strategic and are meant to expose both staff and students to international experiences. This is done through exchange programmes, research and teaching and learning collaborations.

ABOUT US (CONTINUED)

OUR QUALITY

Botho University is driven by the core values of integrity, excellence, and inclusiveness and aims to produce well-rounded, entrepreneurial, and globally employable graduates with the attitude, knowledge, skills, and competencies to create value and drive productivity increases needed to catalyse sustainable economic growth. The focus on quality has resulted in Botho University becoming a BOS ISO 9001:2015 certified institution. With an impeccable reputation for quality in the market, Botho University graduates are leading the way in transforming the economy.

THE BLENDED AND DISTANCE LEARNING CAMPUS

The Blended and Distance Learning Campus (BDLC), which started operating in 2017 is driven by high levels of integrity, excellence, and inclusiveness, which are also the core values of the institution. These values are coupled with state of the art teaching infrastructure, qualified staff, and accredited industry specific programmes offering the learner skills to be employable, entrepreneurial, and well rounded. BDLC offers undergraduate and postgraduate cross-disciplinary programmes that are unique and designed to suit the current and future job market.

NAMIBIA CAMPUS

Botho University, Namibia opened doors to students in August 2018 after duly getting registered with NCHE offering 100% scholarships to the students of Namibia. BU Namibia is now officially recognized by the Namibian Qualifications Authority (NQA) and admits students eligible for NSFAS scholarship and self-sponsored students.

BU Namibia offers degree programmes in the Faculty of Business & Accounting, Faculty of Health and Education and Faculty of Engineering & Technology

ESWATINI CAMPUS

Botho University established a campus in Eswatini in 2018 and is in full operation as per the ESHEC regulatory requirements. The government will start to sponsor students to BU Eswatini from 2023.

BU Eswatini offers programmes from the Faculties of Computing, Health & Education and Business & Accounting.

GHANA CAMPUS

The Ghana Campus, established in 2022 is the first BU campus in West Africa.

Botho University Ghana aspires to be an integral player in establishing an economically diversified, fast growing, and prosperous Ghana built on integrity, excellence, inclusiveness, and financial viability.

The programmes currently under accreditation are in the key fields of Accounting, Business, Computing and Health.

STUDYING IN LESOTHO

STUDYING IN LESOTHO

Botho University Lesotho campus is in Maseru, which is the country's capital and the largest city. The name 'Lesotho' loosely translates into "the land of the people who speak Sesotho." The official languages of Lesotho are Sesotho and English. Sesotho is closely related to Setswana which is the most widely spoken & indigenous language in Botswana. The local currency is the Lesotho loti, plural maloti (LSL). 1 USD = 17.40 LSL (at the time of printing this booklet). Situated between 28 and 31 degrees south and between 27 and 30 degrees East, Lesotho lies entirely outside the tropics, at a considerable height above sea level, and is thus free of bilharzia and malaria. It has a land area of approximately 30,555 km², making it similar in size to Belgium or a little larger than the State of Maryland in the USA.

Lesotho is a conducive study environment and adventure awaits you in the Mountain Kingdom with a range of activities on land, on the snow and in the water. Lesotho is famous for its spectacular scenic beauty branded by breathtaking mountain ranges, towering peaks, a rich variety of flora and fauna, crystal clear streams, surging waterfalls, diverse culture and a snow blanket seen high in the mountains across the country in winter. A land of mountains, Lesotho is the only country in the world which has all its land lying at altitudes more than 1500m above

sea level; it is a land of heights and extremes.

The highest mountain in Lesotho is Thabana Ntlenyana, with a height of 3,482m, while the highest single-drop falls in Southern Africa, Maletsunyane is also found in Lesotho, with a height of 192m. Finally, Lesotho also has the highest abseiling cliff in the world at 204m. Often referred to as the "Switzerland of Africa", it is blessed with a beautiful, often snow-capped range of mountains, the Maloti. The Kingdom's central position is in the heart of Africa's second-largest economy, South Africa, which means residents are well served by air, rail, and road links. Lesotho is only one hour by air or four hours by road from South Africa's largest city, Johannesburg.

EMPLOYABILITY AND OUR GRADUATES

Botho University offers quality support services and programmes that advance student access to learning, welfare, wellness and talent development through Student and Alumni Affairs Department (SAAD).

Services offered by the various units of the department include:

Career and Counselling Services

The unit is available to provide students with psycho-social support, career counselling and academic advising, to further students' personal and professional development.

Special Needs Support

The Special Needs Unit is responsible for managing the welfare of students with special learning needs. The services provided include but are not limited to:

- Special accommodation during exams
- Classroom support
- Resource Lab/Centre
- Individual Education Plan (IEP)

Internships and Placement

The Placement and Internship Unit deals with connecting students with appropriate internship opportunities and assisting graduates in seeking employment.

Alumni Relations

The Alumni Relations Unit aims to foster a lifelong relationship between the university and its graduates. Its intention is to build strong networks

with graduates, geared towards lifelong learning for alumni. Services rendered by this unit include:

- Career Development Support
- Lifelong learning
- Opportunity to mentor university students
- Alumni Community Impact Programmes
- Stay connected facility
- Career Fairs

Health and Wellness

The unit manages the health and wellness of students and staff. It manages the operations of the University clinic, HIV and AIDS policy, and medical emergency evacuations. Some of the services provided include:

- Assistance with minor illness
- Referrals to major clinics and hospitals
- Management of HIV and AIDS interventions and campaigns.
- Wellness programmes

EMPLOYABILITY AND OUR GRADUATES (CONTINUED)

Personal Development

This unit is mandated to teach students life skills. These skills will enable students to cope with tertiary life and life beyond the university. The Personal Development Unit manages and administrates the following:

- Personal Development
- First Year Experience
- Mentorship
- Development Workshops
- Motivation Sessions
- Entrepreneurship Development
- Leadership Programme

Community Engagement

Botho University is committed to the improvement of people's lives in various communities through skills development, entrepreneurship and community empowerment. This division encourages students to interact with communities in planning and implementing programmes and/or activities aimed at addressing the current demands and situations they are facing. The purpose of this partnership with communities is to improve the lives of people, empower communities to be self-reliant and to develop entrepreneurship skills. The division has an emphasis on instilling the values of volunteerism, Botho, spirit of giving and compassion.

Sports, Culture and Recreation

The unit seeks to contribute to academic performance and personal success by promoting welfare and wellness through talent enhancement and management. This unit has a variety of sporting and non-sporting clubs which seek to contribute to the development of each student in relation to the Botho Graduate Profile.
