BOTHO
UNIVERSITY
VIBRANCE • INNOVATION • IMPACT

The Botho Graduate Profile (BGP)

is a list of qualities that all Botho University students are encouraged to learn and imbibe before they graduate.

ARTICULATE

Able to communicate information eloquently, effectively and appropriately to a given audience.

COLLABORATIVE

Considerate of and able to work and communicate effectively with teams of people from different social and cultural backgrounds.

CRITICAL THINKING

Having the curiosity and open-mindedness to acquire new knowledge by analyzing, reflecting on and evaluating information.

DIGITALLY LITERATE

Able to identify trustworthy information and use technology creatively and appropriately to solve problems, make decisions, and improve quality of life.

ENVIRONMENTALLY RESPONSIBLE

Committed to conserving resources and protecting the environment.

INNOVATIVE & ENTREPRENEURIAL

Able to identify opportunities and take measured risk to develop new and improved ideas, processes and products that create value.

KNOWLEDGEABLE & HARDWORKING

Understanding a field of study with the expertise, professionalism, motivation and commitment to apply the knowledge gained to solve problems and deliver quality work.

POSITIVE & CONFIDENT

Being friendly, optimistic, adaptable and resilient, and able to display healthy self-esteem, especially when interacting with others and making decisions.

SOCIALLY RESPONSIBLE

Makes decisions and take actions ethically, with integrity, and in the best interest of society as a whole.

BGP Skills listed above are based on inputs from industry, academia, research, our context and global best practice and employability reports.

“

Botho is an Ethos, a powerful and revered concept. Similar to **Ubuntu**.
"Botho" is upheld as part of Botswana's 5 National Principles - Our name defines us.

The Spirit of Botho - I am because you are. The possession of good qualities associated with a good human being.

”

ABOUT US

CREATING IMPACT ACROSS
12 OUT OF 17
SDG's

Botho University (BU) was founded in 1997 and has quickly grown into a prominent multi-disciplinary institution offering quality higher education across three countries in Sub-Saharan Africa: Lesotho, Botswana and Eswatini, alongside an Online Learning Campus i.e Botho University Online.

Botho University offers qualifications ranging from Undergraduate, Postgraduate and Doctoral programmes. With over 7,000+ students and nearly 400 staff members, the university is a hub of learning and innovation. In Lesotho, it operates under three faculties:

- Faculty of Business & Accounting
- Faculty of Engineering and Technology
- Faculty of Health and Education

All of Botho University's programmes are accredited by the relevant regulatory bodies in each country where it operates. In Lesotho, **all our academic offerings are fully accredited by the Council on Higher Education (CHE).**

The university's 2023-2027 strategy emphasizes the principles of Vibrance, Innovation, and Impact, ensuring that Botho University remains a dynamic and exciting place for students and staff alike. Guided by its core values of integrity, excellence, and inclusiveness, Botho University nurtures well-rounded, entrepreneurial graduates who are globally employable. These graduates possess the attitude, knowledge, skills, and competencies required to drive productivity and foster sustainable economic growth.

Committed to maintaining exceptionally high standards, Botho University is ISO 9001:2015 certified, demonstrating its adherence to international quality assurance standards.

OUR PROGRAMMES

All our programmes are fully accredited by the Council on Higher Education (CHE) and aligned to the Lesotho Qualifications Framework.

FACULTY OF BUSINESS AND ACCOUNTING

Bachelor of Commerce (BCom) in Finance
Bachelor of Commerce (BCom) in Accounting
Bachelor of Commerce (BCom) in Risk Management
Bachelor of Business Administration (BBA) in Business Management

FACULTY OF ENGINEERING AND TECHNOLOGY

Bachelor of Science (BSc) in Mobile Computing
Bachelor of Science (BSc) in Computing
Bachelor of Science (BSc) in Computer Networking
Bachelor of Science (BSc) in Data Science

FACULTY OF HEALTH AND EDUCATION

Bachelor of Science (BSc) in Health Information Management

All information in this prospectus was accurate at the time of printing. For latest information please refer to www.bothouniversity.com.

Bachelor of Commerce in Finance

Programme Overview:

The Bachelor of Commerce in Finance provides a strong, industry-aligned foundation in corporate finance, financial analysis, investment management, banking, and financial markets. This programme equips students with advanced analytical, quantitative, and strategic decision-making skills used in valuation, capital budgeting, financial modelling, portfolio construction, risk assessment, and financial planning. Students engage with real financial data, market dynamics, and the tools applied by finance professionals in both corporate and investment environments.

What sets this degree apart is its balance of rigorous academic content and practical application. Learners work with industry-relevant analytical platforms, case studies, modelling exercises, and simulations that mirror real financial decision processes. A compulsory professional attachment and a research-based dissertation further strengthen experiential learning, ensuring graduates leave with both theoretical competence and hands-on capability sought after in competitive financial sectors.

Graduates are prepared for careers in corporate finance, financial analysis, investment management, banking, treasury operations, financial consulting, credit and risk management, fintech, and wealth management.

Admissions Criteria

1) LGCSE/equivalent with a minimum of 5 subjects of which 3 Credits (C) and 2 Pass (D) including minimum Credit (C) in Mathematics, Pass (D) in English.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can:

- Keep records of company income, expenditure, assets and liabilities
- Handle money, cheques and other payments
- Manage assets
- Ensure all legal requirements are met
- Manage businesses
- Compile budgets
- Control expenses
- Manage purchases and sales
- Handle tax matters
- Auditing or assist in auditing
- Prepare financial statements
- Prepare management accounts
- Management investment portfolios

Career Prospects:

- Accountant
- Accounts clerk
- Administrator
- Financial consultant
- Financial planner
- Financial secretary
- Company secretary
- Compliance officer
- Economist
- Asset manager
- Auditor
- Banker
- Bookkeeper
- Business manager
- Foreign exchange officer
- Insurance consultant
- Internal auditor
- Tax consultant
- Teacher/Lecturer
- Teller
- Property valuer
- Financial manager
- Supply chain manager
- Office administrator
- Property manager
- Investment manager
- Management accountant

FACULTY OF BUSINESS & ACCOUNTING

Bachelor of Commerce in Finance (Contd..)

Skills Developed:

- An interest in the 'business of business'
- Good analytical skills, and the ability to see the big picture
- Excellent mathematics skills
- Good planning and organizational abilities
- Strong personal and people skills
- Effective communication skills
- Attention to detail
- Adaptability and flexibility
- Energetic and an intense desire to learn
- Highly organised and effective decision making
- Internet-savvy
- Enthusiasm and dedication

Bachelor of Commerce in Accounting

Programme Overview:

This programme helps develop student understanding of accounting with a deeper look into taxation, auditing, assurance, commerce, finance, strategic management, etc. It is targeted at those who would like to permeate the accounting sector, commercial banking sector, investment sector, or work in public sector companies or accounting firms.

Admissions Criteria

1) LGCSE/equivalent with 3 Credits and 2 Pass including Credit in Mathematics and Pass in English.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can :

- Keep record of company income, expenditure, assets and liabilities
- Handle money, cheques and other payments
- Manage assets
- Ensure all legal requirements are met
- Manage businesses
- Compile budget
- Control expenses
- Manage purchases and sales
- Handle Tax matters
- Auditing or assist in auditing
- Prepare financial statements
- Prepare management accounts
- Management investment portfolios

Career Prospects:

- Accountant
- Accounts clerk
- Administrator
- Financial consultant
- Financial planner
- Financial secretary
- Company secretary
- Compliance officer
- Economist
- Asset manager
- Auditor
- Banker
- Bookkeeper
- Business manager
- Foreign exchange officer
- Insurance consultant
- Internal auditor
- Tax consultant
- Teacher/Lecturer
- Teller
- Property valuer
- Financial manager
- Supply chain manager
- Office administrator
- Property manager
- Investment manager
- Management accountant

Skills Developed:

- Computer skills
- Attention to detail
- Interest in banking systems
- Research
- Analytical
- Critical thinking
- Entrepreneurial
- Problem-solving

Bachelor of Commerce in Risk Management

Programme Overview:

The Bachelor of Commerce in Risk Management offers a dynamic, industry-relevant pathway into one of the fastest-growing fields in modern business. This forward-looking programme equips learners with the analytical, technical, and strategic capabilities required to identify, assess, and manage risk across diverse organisational contexts. Learners build strong expertise in insurance, credit risk, enterprise risk management, financial risk, compliance, and decision modelling, all firmly anchored in real-world application.

Admissions Criteria

1) LGCSE/equivalent with 3 Credits and 2 Pass including Credit in Mathematics and Pass in English.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can :

- Discover, model and manage risk
- Solve risk and insurance related problems
- Develop corporate governance models
- Research on existing problems and develop solutions
- Develop business continuity plans
- Identify and evaluate sources of finance
- Appraise investment projects
- Manage finances
- Plan on taxation issues
- Develop new and innovative ideas and start own enterprises
- Manage property and related issues
- Manage international business finance

Career Prospects:

- Chief Risk Officers / Risk Taker
- Underwriter
- Financial Advisor
- Educationist
- Financial Risk Manager
- Compliance and Governance Manager
- Insurance Brokers / Insurance Adjuster
- Investment Analyst
- Portfolio Manager
- Credit Analyst
- Captive Insurer

Skills Developed:

- Financial management
- Presentation
- Research
- Analytical
- Critical thinking
- Entrepreneurial
- Problem-solving
- Microsoft Word, Excel, PowerPoint

Bachelor of Business Administration in Business Management

Programme Overview:

This program is designed for students seeking to build a career in management, primarily in profit-driven sectors. It carefully combines theoretical and practical teaching as part of its training approach, while incorporating work-related learning to ensure the production of graduates with both the knowledge and skills to succeed in the competitive business sector worldwide.

Admissions Criteria

- 1) LGCSE/equivalent with 3 Credits and 2 Pass including Credit in Mathematics and Pass in English.
- 2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.
- 3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can :

- Address practical business problems
- Make key business decisions
- Influence business strategy
- Analyse business data
- Manage and organise product portfolio
- Appraise corporate projects
- Manage small business
- Plan and implement strategic plan
- Establish new ventures
- Research and development

Career Prospects:

- Country Manager
- Branch Manager
- Branch Supervisor
- Business Lecturer
- Business Consultant
- Change Management Consultant
- Business Process Orchestration Analyst
- Operations Manager

Skills Developed:

- Understanding of facts and figures
- Computer skills
- Presentation skills
- Market intelligence
- Ability to deal with people
- Interest in starting and growing a business

Bachelor of Science in Mobile Computing

Programme Overview:

This programme focuses on the development and deployment of applications and systems for mobile platforms. Students will gain expertise in mobile application development, wireless communication, and user interface design. Graduates will be well-positioned to address the growing demand for mobile computing solutions in sectors like business, healthcare, and entertainment, as mobile technology continues to revolutionise daily life and industry practices.

Admissions Criteria

1) LGCSE/equivalent with a minimum of 5 subjects of which 3 Credits and 2 Pass including minimum Credit in Mathematics and Pass in English.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can :

- Undertake mobile IT Security and game development
- Design and implement complex mobile applications for different platforms
- Install and configure mobile applications, and manage mobile networks

Career Prospects:

- Mobile Solution Specialist
- Mobile Application Developer
- Mobile Computing Analysts
- Game Developers
- Mobile Technicians
- Mobile Security Experts
- Mobile Phone Verification Manager for Android, iOS and Windows
- Mobile Applications Developer for Android, iOS and Windows
- Mobile edutainment

Skills Developed:

- Mobile App Development
- User Interface (UI) and User Experience (UX) Design
- Mobile Operating Systems
- Cross-Platform Development
- Mobile Database Management
- Mobile Security
- Mobile Networking
- Mobile Testing and Debugging
- Mobile Analytics
- Mobile Cloud Computing
- Mobile Payment Integration

Bachelor of Science in Computing

Programme Overview:

The Bachelor of Science in Computing provides students with a comprehensive foundation in core computing principles, technologies, and methodologies. The programme emphasises problem-solving, software development, systems analysis, and system design, equipping graduates with the skills needed to develop innovative computing solutions across a wide range of industries and to adapt effectively to the rapidly evolving technological landscape.

The programme offers two specialised tracks that allow students to tailor their studies according to their career interests. The Software Engineering track is designed for students aspiring to careers in areas such as software engineering, artificial intelligence, and data science. This track focuses on programming, software design and development, data-driven applications, and emerging intelligent technologies.

The Networking specialisation track is aimed at students interested in careers in hardware and network engineering. It focuses on the design, implementation, management, and troubleshooting of local and wide area network (LAN and WAN) infrastructures, with practical exposure to industry-standard tools and technologies, including Cisco and Huawei networking platforms and applications.

By combining a strong computing foundation with focused specialisation, the BSc in Computing prepares graduates for diverse professional roles in the computing and information technology sector, as well as for further studies and professional certification.

Admissions Criteria

1) LGCSE/equivalent with a minimum of 5 subjects of which 3 Credits and 2 Pass including minimum Credit in Mathematics and Pass in English.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can :

- Plan IT systems for businesses
- Develop and maintain computer systems
- Install computer networks
- Provide technical support
- Write manuals about the equipment they make
- Design new technologies
- Administer databases
- Find ways of making businesses more efficient using technology
- Undertake programming

Career Prospects:

- Software Engineer
- Network Engineer
- Network Administrator
- Database Designer
- Database Administrator
- Web Designer
- Teacher/Lecturer
- System Administrator
- IT Manager

Skills Developed:

- Programming Languages
- Software Development
- Database Management
- Web Development
- Networking
- Operating Systems
- Cybersecurity
- Data Analysis
- Cloud Computing
- Mobile Development
- Project Management

Bachelor of Science in Computer Networking

Programme Overview:

This programme equips students with in-depth knowledge of networking technologies, protocols, and system management. It emphasizes the design, implementation, and maintenance of secure and efficient network infrastructures. With a focus on real-world applications, graduates are prepared to tackle challenges in areas like network security, cloud computing, and internet technologies, ensuring seamless communication and connectivity in organisations

Admissions Criteria

1) LGCSE/equivalent with a minimum of 5 subjects of which 3 Credits and 2 Pass including minimum Credit in Mathematics and Pass in English.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Career Prospects:

- Network Engineer
- Technical Support Engineer
- Network Administrator
- Systems Engineer
- Network Security Associate
- Network Data Engineer
- Network Field Technician
- Network Security Analyst
- IT Manager

Graduates of this programme can:

- Understanding the Structure and functions of the internet
- Building Simple LANs and Enterprise Networks
- Performing Basic Configurations on Routers and Switches
- Wireless LANs and Security Concepts
- Resolving common issues with protocols in both IPv4 and IPv6 Networks
- WAN technologies
- Implementation of Quality of Service
- Virtualization, Software defined networking, and automation in evolving networks

Skills Developed:

- Networking Protocols
- Network Architecture and Design
- Routing and Switching
- Network Security
- Wireless Networking
- Network Management and Monitoring
- Network Virtualisation
- Cloud Computing and Networking
- Network Troubleshooting
- Cryptography
- Operating Systems
- Programming and Scripting
- Project Management

Bachelor of Science in Data Science

Programme Overview:

This programme is concerned with extracting intelligence from data. This is done by applying cutting-edge techniques from Statistics, Mathematics and Computer Science. The techniques used to understand the modern abundance of data are at the intersection of computing and mathematics, including statistics and machine learning, and there is a high demand in the industry. Furthermore, the qualification will aid in making data-driven decisions in the bid to attain Sustainable Environment and Sustainable Economic Development.

Admissions Criteria

1) LGCSE/equivalent with a minimum of 5 subjects of which 3 Credits and 2 Pass including minimum Credit in Mathematics and Pass in English.

2) Applicants in possession of a Diploma or Higher Diploma in related fields may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this program can:

- Apply data-driven models in various fields like finance, biology, health, education, agriculture, and many other fields
- Communicate in technical and non-technical terms concepts of Data Science in different sectors of the economy
- Develop new data processing models
- Apply developed models to various problems
- Develop multiple programming languages used for expressing solutions
- Safeguard the ethical use of data in all aspects of their profession
- Work effectively in a team
- Communicate effectively
- Develop research skills
- Develop entrepreneurial skills

Career Prospects:

- Data Analyst
- Data Mining Engineer
- Data Architect
- Data Scientist
- Senior Data Scientist
- Business Intelligence Analyst
- Machine Learning Scientist
- Clinical Data Managers

Skills Developed:

- Statistical analysis and computing
- Machine learning
- Deep learning
- Processing large data sets
- Data visualisation
- Data wrangling
- Mathematics
- Programming

Bachelor of Science in Health Information Management

Programme Overview:

This programme combines Science, Business, and Information Technology to ensure that students who undertake it come out furnished with the necessary skills they will need to work in middle to senior management grades in clinical and hospital settings or physicians' offices as Health Data & Information Managers, Bio Statisticians, Medical Informaticians, Data Quality Managers, Researchers, and Public Health Information Managers or Officers.

Admissions Criteria

1) LGCSE/equivalent with a minimum of 5 subjects of which 3 Credits, 2 Pass including minimum Pass in English, Pass in Mathematics and Pass in Biology.

2) Applicants in possession of a Diploma or Higher Diploma in related field may be given exemptions based on the credit point equivalency.

3) For enquiries and more information please visit our website: www.bothouniversity.com

Graduates of this programme can :

- Build effective systems to collect, generate, organise, collate, analyse, interpret and disseminate health related data
- Organise and present health-related information for policy, planning and for operations management of the health sector
- Design data collection tools/instruments
- Conduct special studies/evaluations on health information areas
- Develop protocols/guidelines for health information management
- Develop and manage a health informatics infrastructure
- Develop and administer medical databases
- Ensure privacy and ethical practices when managing patient data
- Carry out medical transcription
- Carry out coding of diseases and drugs using ICD 10 or later standards

Career Prospects:

- Health Data & Information Management Officer/Managers
- Medical Informatician
- Data Quality Manager & Researcher
- Public Health Information Managers/ Officers
- Inpatient and Outpatient HIM Coder & Coding Educator
- Director – Coding Operations Hospital
- Health Information Management Analyst/Coder
- Health Information Management Programme Director
- Health Information Management Medical Coding Manager
- Health Information Management Consultant
- Health Information Management Practice Leader Operations
- Health Information Services Manager
- Insurance Manager
- Hospital Administrator

Skills Developed:

- Computer skills
- Professional writing
- Presentation skills
- Data collection and analysis skills
- Problem-solving skills
- Creative, critical, logical and analytical thinking skills
- Team building and management skills

1. Applying to Botho University

Before applying to Botho University, students are encouraged to take time out to familiarise themselves with all the programmes on offer. Applicants must meet all the relevant minimum requirements for the programme of study they wish to study. It is also important for applicants to assess whether the programme they choose interests them and that they want to make a career out of it. Our friendly Admission Team Counsellors will provide information needed about the programmes and assist applicants to make informed choices. Details on programmes are available on our website:

www.bothouniversity.com

2. How to calculate points

The admission point system is used to measure your academic achievement based on your school-leaving results. Your school-leaving subject grades or percentages are converted into points as per the table above and based on your qualification. These points are added up to arrive at the number of points you have obtained.

3. Important points to remember when applying:

All students can apply in person or using the application form available on the website. Please read the Fee Structure and Policy document available on the website before applying.

Important documents required :

- Clear certified copies of all relevant educational certificates.
- Clear certified copies of passport/identity card.

Some programmes may require additional documentation to complete the application process; please refer to the application form.

Should you have any doubts regarding the application process, please contact our admissions department for further assistance.
